

Three way e-plane divider

WR75 1/3 (3-way) E-plane power divider intended for equal dividing of transmitted Ku-band (10.7-12.7GHz) signal between 3 antennas or other blocks.

WR75 1/3 (3-way) E-plane power divider intended for equal dividing of transmitted Ku-band (10.7-12.7GHz) signal between 3 antennas or other blocks. Can be applied in combination with waveguide filters, circulators, isolators or flexible waveguides - depends from application. In our projects in most cases used in kit with [OLSA-KUH3 V1](#) or its V-pol modification.

Taking into consideration that we (ROKS PrJSC) are developer and system integrator, also do not stop on our technical growth and improvement, know that view of all our devices and equipment including their technical parameters may be different from pictures presented on website and parameters listed on each device webpage.

Note! All details customer has to confirm in advance during ordering and before payment. Those parameters that were not specified and / or were not agreed while ordering will be implemented as basic at the discretion of the manufacturer. Each our customer has 1.5 year warranty and 7 year aftersales support for whole range of our products.
